

# Smart, simple, fast way to manage your account

## Release v2.6.0

myCHEP™

### Your feedback drives a better user experience

Based on the feedback you have shared, we've made a number of enhancements, some highlights include:

#### Docket history

When you conduct a docket search in the Review / Modify screen, you can now view the entire history of the docket.

#### Terminology and visual updates

We've changed the terminology from orders and collections to 'Issues and Returns' and made other visual updates to improve usability.

#### Ability to correct the direction of a transfer

You can now change the direction of a transfer from a 'Transfer In' to a 'Transfer Out' and vice versa.

#### Improved format of excel downloads

We've improved the formatting of Excel downloads throughout the system to improve usability of these files. For example, we've converted the quantity fields to numeric values.

#### Reports

We've improved the display of the 'Reference' and 'Other Reference' field in reports.

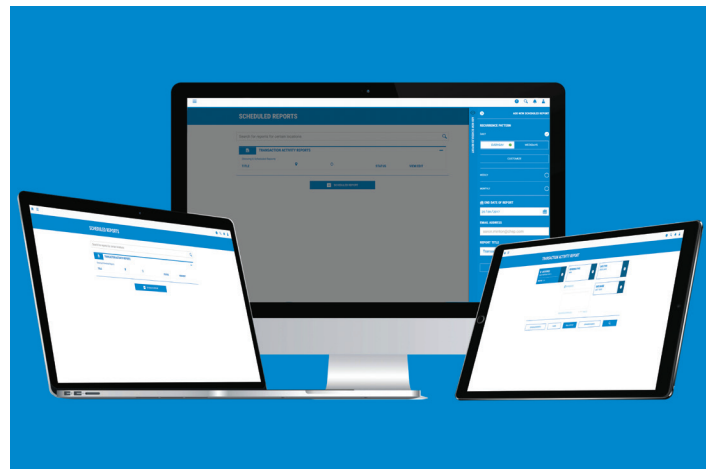

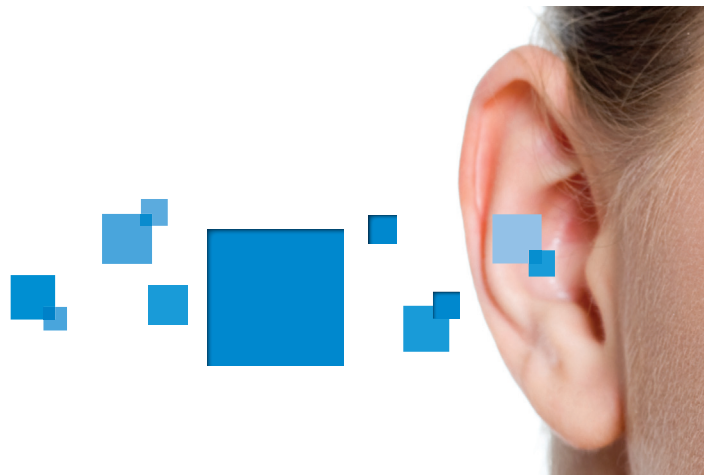

### New features

#### Scheduled reporting

The ability to simply define your reports and schedule them for automatic delivery.

#### Emailing of reports

Saving you time with the ability to automate the emailing of reports, rather than waiting for them to run.
