

Smart, simple, fast way to manage your account

Release Notes v3.1.0

New functionality	
FY19 Calendar	You can now download the FY19 calendar including cut off dates from the Documents section within the Help and Support module.
Enhancements	
Stock balances updated more frequently	The stock balances on both the homepage and within the stock balance report are now updated every two hours.
Full screen mode for Review/Modify	Added the "Toggle Full Screen" button above the results table in the Review/Modify screen to enable you to view the table of data in a full screen mode.
Fixes	
Corrections – Mass Update	The user will no longer get an unrelated error message when performing mass updates on corrections of transfers.
Corrections – Excel Download	Translation in the Excel download file have been made to ensure that the correct translation type is showing and match what is appearing on screen in myCHEP.
Manage Transactions – Review/Modify	Versioning of corrected transactions are now showing correctly when a movement is corrected to a new other.
Manage Transactions – Review/Modify	Users will no longer see a suspended and clean version of a transfer when a docket gets suspended in SAP and then processes clean.
Manage Calendar – Issues/Returns	The copy to button will now appear on recently created Issues/Returns the user submitted.
Reports – Stock Balance Report	Balance of Issues is now being reported correctly in the stock balance report.
Reports – Stock Balance Report	The date format is now showing correctly on the downloaded Stock Balance Report.
Reports – Transaction Activity Report	When running the Transaction Activity Report and searching by Effective Date for the last 7 days, it will no longer timeout.
Translations	New reasons have been added for reversals and corrections.
